About Me

.....

I am a Software Developer driven by a constant pursuit of excellence in the ever-evolving technology landscape. Possessing an innate passion for innovation, I am always looking for new challenges that will help me hone my skills and expand my technical expertise. With an unwavering commitment to staying up-to-date with the latest trends, I bring a dynamic and adaptable approach to every problem, ensuring that all solutions are delivered to the highest standard.

.....

Work Experience

Software Development Engineer - I

11/2022 – 10/2023

Masters India, Noida, India

- Our team develops and maintains GST software for billing, invoicing, payment, etc. to make GST related processes simpler.
- Maintaining end-to-end integration from development to unit testing and optimizing the platform's performance.
- Successfully converted the entire application from Javascript (ES2022) to Typescript 4.
- Working on the latest technologies & software – React, Jest, Nx, Git, Jira, etc.

Systems Engineer

10/2021 – 11/2022

Tata Consultancy Services, Nagpur, India

- Worked as a Technical Business Analyst under the ETL domain for a bank based in Australia.
- Performed Data Analysis & Data Validation by writing complex SQL queries and procedures.
- Strategic Analysis, Gap Analysis, Risk Analysis, and reporting before ingesting large-scale datasets.
- Worked on Agile methodology and had hands-on experience with tools like HIVE, Abinitio, JIRA, Confluence, etc.

Fullstack Developer Intern

06/2020 – 09/2021

Aron Infotech, Nagpur, India

- I worked as a Fullstack Developer for a US-based healthcare company that had around 3000 active patients.
- In addition to providing real-time compliance data, the platform was used to minimize claim rejections and maximize revenue.
- Our tech stack included NodeJS, ExpressJS, ReactJS, MySQL, AWS, JIRA, and Bitbucket.
- Developed a Remote Patient Monitoring System in which we implemented various APIs to get real-time data from vendors and process data using cron jobs and provided a platform for the Nurses and Physicians to monitor and interact with their Patients.

Freelancer

06/2019 – 05/2020

Nagpur, India

- In my freelancing career, I have developed websites and applications for some local clients and gained early hands-on experience in the industry.
- Additionally, I have developed and launched e-commerce apps for a jewelry vendor and a grocery store.
- Developed a website for facilitating admissions to kindergarten and coaching classes as well as answering their queries.
- As a freelancer, I also helped a startup build a Learning Management System for their students to take classes online.
